## **DURING (2015-16)**

# NDRF TRAINING

Training plays an essential role in enhancing the efficiency and expertise of the responders. NDRF personnel undergo variety of training where emphasis is given on gaining basic knowledge of the disaster response to refreshing the skill acquired as well as to raise the expertise level to cope up with the technological advancements in the field of disaster management in the world. Continuous training is imperative for maintaining our skills as per the international standards. It is the rigours of training that bring out the best in each responder's skills. It also helps responders to shape their attitude for extremely difficult and treacherous circumstances in disaster situations. Training is not only confined to gaining knowledge and experience oneself, rather it also includes sharing the same knowledge with other stakeholders, including the public, by various methods like conducting community awareness programme, organising Lectures, demonstrations and mock exercises; so as to enable them to be self empowered in managing their own disaster response mechanisms and become the first responders in right earnest.

# BATTALLION'S ANNUAL TRAINING

The strength of a Battalion of NDRF is 1149 personnel which are drawn on deputation from Central Armed Police Forces (CAPF), with a policy of 20 % annual changeover. In order to achieve the operational proficiency, the following training objectives are followed in spirit:-

- a) Imparting the basic knowledge of the mechanics of disaster response and its various facets and further enhancing professional knowledge and skills of newly inducted person in NDRF by following the training regime religiously. Annual training calendar as been formulated for all NDRF Bns. The better performance of individuals will be reflected in ops only when the responders are highly skilled and trained in basic rescue manoeuvres.
- b) Promoting better understanding of professional requirements especially developing outstanding physical fitness of own, apart from care & maintenance of equipment.
- c) Developing adequate ToTs & MoTs to act as resource persons for continued training cycle apart from dealing with any eventuality during disaster response.
- d) Bringing about right attitudinal orientation in the disaster responders which should emphasize upon improving the humanitarian behavioral approach.
